Bootstrap, MySQL, Git.

Profile

I do programming

Enucation

> Informatics Engineering - Politeknik Telkom
Bali Widya Dharma (2013/09 – 2016/12)

CPI/GPA: **3.90** of 4.00

- Introduction to programming - focused on
learning web
development

Honor

> Best Graduate Student 2016 – “Wisuda ke-5”
Politeknik Telkom Bali Widya Dharma.

Work Experiences & Projects

> Web Developer – CV. Rumah Media (2016/08 –
2017/11)

- I mostly design and develop tour/travel agency
and company type websites in here using
custom PHP framework, but these are the
highlight of my works while working in here:

Siukir (Sistem Uji KIR Tabanan) – an online
motor vehicle licensing system. (2016)
<http://siukir.tabanankab.go.id>

I design the system and build the backend part.
The backend is developed using custom PHP
framework.

Portal & CC Universitas Warmanewa – a blog
type & information website and job vacancy
system. (2017) <http://warmadewa.ac.id>

I design and build the whole frontend and
backend of the website. I also develop the
subdomain
<http://www.careercenter.warmadewa.ac.id/>
that offer job vacancies for students. The
backend developed using PHP.

Sinata Kejati Bali – an application to manage
letter and store data. (2017)
(screenshot attached)

Built using PHP and Google maps API to show
data stored in the system.

Polling Berita Bali – a voting application. (2017)
<http://polling.beritabali.com>

Built using PHP, JS and Facebook API.

> Web & Graphic Designer – Tiku Bali Production
(2015/01 – now)

- I work part time in here.

- I usually make design of brochure, poster,
namecard and website in here, but also develop
some website.

Sim Satlantas Karangasem – an online
registration of driver's license system (2017)
<http://satlantaskarangasem.go.id>

file dokumen bertandatangan digital yang resmi dan sah
